“We learn not for school, but for life.”

MIDDLE SCHOOL MATH TEACHER
2018-2019

Powhatan School is a pre-kindergarten through eighth grade coeducational, independent day school located near Winchester in the beautiful Shenandoah Valley of Virginia. Founded in 1948 and accredited by the Virginia Association of Independent Schools, Powhatan is situated in a rural setting on 67 acres of land in the town of Boyce in Clarke County. Our student body draws from a broad geographical area consisting of three states and seven school districts. Our families come from Virginia (Clarke County, Fauquier County, Frederick County, Loudoun County, Warren County and Winchester City), Maryland, and West Virginia

Powhatan’s educational philosophy views elementary and middle school as important steps in a lifelong learning process that is to be cherished in and of itself. With an emphasis on a literature-based curriculum, the school offers opportunities for intellectual enrichment and personal growth through study that crosses the academic disciplines. With a strong math and science program, we provide instruction in music, art, drama, public speaking, athletics, and computer technology as well as participation in extra-curricular activities.

Powhatan School believes that successful education creates lifelong learners who use their knowledge, creativity, and skills to be confident students in an ever-changing world. *We learn not for school but for life* is our guiding principle.

Powhatan School is looking for an outstanding middle school professional to teach math. We seek a teacher who is passionate about teaching motivated, intelligent middle school students, who has strong classroom experience, who can work with advanced technology, who has an understanding of independent education, who strives for excellence, and who contributes as a member of the team.

Responsibilities:

- Teach courses that can range from sixth grade math to high school geometry
- Collaborate with faculty to create interdisciplinary learning
- Serve as a homeroom teacher
- Assist fourth and fifth grade teachers with math differentiation
- Serve as an advisor to middle school students
- Teach with technology in the classroom (graphing calculators and computers)
- Assess student progress and write comments for report cards
- Keep an updated Google Classroom web page
- Attend and support school events
- Assume additional responsibilities commensurate with skills to enhance and support the school

Requirements:

- B.S. in mathematics
- Independent and/or public school classroom experience preferred but not required
